EDUCATION

Studying BSC(hons)
Computer Science and
Software Engineering
(Completed 2 years) at
SLIIT
2022 - present

PROGRAMMING LANGUAGES

C++
Java
Python
HTML,CSS

DATABASES

MongoDB
MySQL
PostgreSQL

FRAMEWORK

Next Js
Django

ABOUT ME

I am an undergraduate student at the Sri Lanka Institute of Information Technology (SLIIT) with strong expertise in C++, SQL, JavaScript, Java, React, Next.js,Django and ASP.NET. I possess excellent leadership and problem-solving skills, which I leverage to effectively motivate and guide teams.

PROJECT EXPERIENCE

● Furry Pet Clinic

Developed an Admin Dashboard ,Consultant Dashboard , Customer Dashboard using React, with MongoDB as the database and implemented CRUD operations for consultant management, including add, delete, and update functionalities. Integrated real-time notifications to alert consultants of changes made to their details.

<https://github.com/NaveenEkanayake/F2Clinic.git>

● Leave Management System (React, Springboot)

Created a Leave Management System for a coffee shop as an individual project, utilizing React.js and Spring Boot. This system supports two user roles—admin and employee—allowing employees to apply for leave and receive real-time status updates, while enabling the admin to manage and oversee leave requests effectively.

https://github.com/NaveenEkanayake/Leave_Management.git

● Student Management(Frontend Developer in Login and Student Dashboard)

https://github.com/NaveenEkanayake/Student_Management.git

● Pizza Delivery(React , MongoDB)

Designed and developed a user-friendly pizza delivery application using React for the frontend. The app features a dynamic landing page, cart functionality, payment system integration, and user authentication, including login, registration, and password recovery. Additionally, it allows users to track their order status through a referral link. While the frontend is fully implemented, the backend is yet to be developed.t

● Class

Management(Html,bootstrap,javascript).ASPNET

LIBRARIES

React
Redux

LANGUAGE

English
Sinhala

Developed a Class Management System using ASP.NET, enabling users to efficiently add, update, delete, and view student and class details.

<https://github.com/NaveenEkanayake/ClassManagement-.ASP.NET-.git>

● Inventory Dashboard (NEXTJS , PostgreSQL)

Developed with Next.js, Redux, and PostgreSQL, this dashboard equips shop administrators with advanced tools for managing and analyzing business operations. It provides detailed insights into key metrics such as total expenses, discounts, popular product purchases, and order summaries. Features include a user management module for overseeing shop users and a product management section for viewing and creating products. The settings menu allows administrators to toggle between light and dark themes, offering a customizable user experience.

https://github.com/NaveenEkanayake/Inventory_Management_Dashboard-NEXTJS-.git

● Student Management(Django)

Developed Student Management System using the Django framework. This application allows for basic CRUD (Create, Read, Update, Delete) operations specifically for managing student details.

https://github.com/NaveenEkanayake/Student_management-Django-.git

● Simple Calculator (HTML,CSS,Javascript)

Developed a Simple calculator using Html,Css, javascript

<https://github.com/NaveenEkanayake/Calculator-Html-css-Javascript.git>

TODO application

I developed a simple to-do list application incorporating Material UI and Tailwind CSS for an appealing design. The backend is powered by MongoDB to manage user data.

<https://github.com/NaveenEkanayake/TODO.git>

CERTIFICATES

- Python for basics
